

Product Description:

FWA OB-1 is especially suitable for shaping various kinds of plastics and their products under high temperature. It has an extra ideal whitening effect on polyester-cotton blend fabric. It can be used for whitening polyester melt. This whitening agent is similar to Whitex SNK, Uvitex ERT and Eastobrite OB-1 made in foreign country. Applicable on PP, PE, PVC, ABS, EVA, PS etc. Whitening.

Specifications

1. can be used for polyester, plastic, in whitening of Nylon during polymerization.
2. high light stability and chemical stability.

Product Picture:

Production Application:

- 1) Suitable for whitening and brightening polypropylene plastic, hard PVC, ABS, EVA, polystyrene, polycarbonate, etc.
- 2) Suitable for whitening chemical fibers, such as the polyester fibre, nylon fiber, polypropylene fiber and so on.
- 3) Suitable to be added into the conventional polymerization of polyester and nylon.
- 4) Especially suitable for whitening the plastics of elevated temperature compaction.
